Recognizing that low-lying and other small island countries, countries with low-lying coastal, arid and semi-arid areas or areas liable to floods, drought and desertification, and developing countries with fragile mountainous ecosystems are particularly vulnerable to the adverse effects of climate change,

Recognizing the need to operationalize the Adaptation Fund as soon as possible,

Taking note of the proposed arrangements for the Adaptation Fund presented by the Global Environment Facility as an entity entrusted with the operation of the financial mechanism of the Convention, as contained in paragraph 31 of the report of the Global Environment Facility to the Conference of the Parties (FCCC/CP/2005/3 and Corr.1),

Noting that the Adaptation Fund shall be financed from the share of proceeds on the clean development mechanism project activities and other sources of funding,

Recognizing that adaptation to climate change is an integral part of ongoing efforts for sustainable development,

1. *Decides* that the Adaptation Fund established under decision 10/CP.7 shall finance concrete adaptation projects and programmes in developing country Parties that are Parties to the Kyoto Protocol, as well as activities identified in decision 5/CP.7, paragraph 8;
2. *Decides* that the Adaptation Fund shall function under the guidance of, and be accountable to, the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol;
3. *Decides* that the operation of the Adaptation Fund shall be guided by the following:

Recalling Article 10, paragraphs (c), (d) and (e) of the Kyoto Protocol and other relevant provisions committing Parties to cooperate in capacity-building,

Recalling decision 2/CP.7 establishing a framework for capacity-building in developing countries,

Noting decision 2/CP.10 inviting Parties to submit to the secretariat, by 15 February 2006, views on how the Subsidiary Body for Implementation can monitor regularly the implementation of the framework for capacity-building for consideration by the Subsidiary Body for Implementation at its twenty-fourth session (May 2006) and by the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol at its second session (November 2006),

Noting that the entry into force of the Kyoto Protocol on 16 February 2005 has increased interest and activities in the clean development mechanism in developing countries and consequently the need for capacity-building,

Acknowledging inputs from Parties responding to the request for views, made by the Subsidiary Body for Implementation at its seventeenth session, on additional priority areas for capacity-building relating to the implementation of the Kyoto Protocol,

Noting the need to seek synergy in providing capacity-building among Parties, the financial mechanism, bilateral and multilateral agencies, and the private sector,

1. *Decides* that the framework for capacity-building adopted by decision 2/CP.7 is applicable to the implementation of the Kyoto Protocol and reaffirms the framework to guide capacity-building activities relating to the implementation of the Kyoto Protocol in developing countries;

2. *Decides* that capacity-building relating to the implementation of the Kyoto Protocol in developing countries within the scope of the framework reaffirmed in this decision should be provided to enhance the ability of developing countries to participate effectively in project activities under the clean development mechanism, such as those priority areas listed below;

- (a) Institutional capacity-building to assist developing countries in establishing and strengthening designated national authorities
- (b) Increasing awareness, training and networking of developing country designated national authorities, non-governmental organizations, the private sector and all relevant stakeholders, particularly for the development of skills relating to the clean development mechanism project cycle
- (c) Supporting and facilitating communication, cooperation and networking between developing country designated national authorities, and clean development mechanism Executive Board, and other clean development mechanism actors

- (f) Enhancing capacity to formulate mitigation activities and policies and to integrate them with other policy instruments within the framework of sustainable development;

3. *Decides* that the capacity-building framework reaffirmed by this decision should receive urgent attention from Parties included in Annex II to the Convention, and, as appropriate, multilateral and bilateral agencies and the private sector, and should be implemented taking into account decision 2/CP.7;

4. *Requests* the secretariat to provide reports to the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol on the efforts made to implement the framework for capacity-building reaffirmed by this decision and to take into account this decision in preparing its synthesis report on the steps taken to monitor regularly capacity-building activities pursuant to decision 2/CP.7 as elaborated in decision 2/CP.10.

Decision 31/CMP.1

Matters relating to Article 3, paragraph 14, of the Kyoto Protocol

The Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol,

Determined to protect the climate system for present and future generations,

Having considered matters relating to Article 3, paragraph 14, of the Kyoto Protocol,

Recalling decisions 8/CP.4 and 5/CP.4,

Recalling also decisions 5/CP.4 and 12/CP.5,

Reiterating that the extent to which developing country Parties will effectively implement their commitments will depend on the effective implementation by the developed country Parties of their commitments relating to financial resources and transfer of technology and will take fully into account that economic and social development and poverty eradication are the first and overriding priorities of the developing country Parties,

Reiterating that Parties should protect the climate system for the benefit of present and future generations of humankind, on the basis of equity and in accordance with their common but differentiated responsibilities and respective capabilities and, accordingly, that the developed country Parties should take the lead in combating climate change and the adverse effects thereof,

Recognizing that developing country Parties that would have to bear a disproportionate or abnormal burden under the Convention should be given full consideration,

Recognizing that low-lying and other small island countries, countries with low-lying coastal, arid and semi-arid areas or areas liable to floods, drought and desertification, and developing countries with fragile mountainous ecosystems, are particularly vulnerable to the adverse effects of climate change,

Recognizing the special difficulties of those countries, especially developing countries, whose economies are particularly dependent on fossil fuel production, use and exportation, as a consequence of action taken to limit greenhouse gas emissions,

1. *Decides to establish a process for the implementation of Article 3, paragraph 14, of the Kyoto Protocol, including exchange of information and the development of methodologies on the assessment of adverse social, environmental and economic impacts on developing country Parties, particularly those identified in Article 4, paragraphs 8 and 9, of the Convention, and of their minimization; among the issues to be considered shall be the establishment of funding, insurance and transfer of technology;*

2. *Recognizes that minimizing the impact of the implementation of Article 3, paragraph 1, of the Kyoto Protocol is a development concern affecting both the industrialized and developing countries. Each Party included in Annex I commits itself to take fully into account the consequences of these actions on developing countries, and to prevent or minimize their adverse effects on developing countries; these Parties consider such action as a cost-effectiveness measure;*

3. *Requests each Party included in Annex I to provide information, as part of the necessary supplementary information to its annual inventory report, in accordance with the guidelines under Article 7, paragraph 1, of the Kyoto Protocol, relating to how it is striving, under Article 3, paragraph 14, of the Kyoto Protocol, to implement the commitments mentioned in Article 3, paragraph 1, of the Kyoto Protocol in such a way as to minimize adverse social, environmental and economic impacts on*

developing country Parties, particularly those identified in Article 4, paragraphs 8 and 9, of the Convention; and further requests those Parties to incorporate, in this respect, information on action identified in paragraph 8 below, based on methodologies identified at the workshop referred to in paragraph 11 below;

4. *Decides* that the information referred to in paragraph 3 above shall be considered by the facilitative branch of the compliance committee;

5. *Invites* Parties not included in Annex I to provide information on their specific needs and concerns relating to the adverse social, environmental and economic impacts arising from the implementation of commitments under Article 3, paragraph 1, of the Kyoto Protocol, and requests Parties included in Annex II to the Convention to provide support for that purpose;

6. *Decides* to develop guidelines before the second session of the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol to help determine if Parties included in Annex I are striving to minimize adverse effects, including the adverse effects of climate change, effects on international trade, and social, environmental and economic impacts on other Parties, especially developing country Parties, and in particular those identified in Article 4, paragraphs 8 and 9, of the Convention, based on methodologies identified at the workshop referred to in paragraph 11 below;

7. *Invites* the Intergovernmental Panel on Climate Change, in cooperation with other relevant organizations, to prepare a technical paper on geological carbon storage technologies, covering current information, and report on it for the consideration of the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol at its second session;

8. *Agrees* that Parties included in Annex II to the Convention, and other Parties included in Annex I in a position to do so, should give priority, in implementing their commitments under Article 3, paragraph 14, of the Kyoto Protocol, to the following actions:

- (a) The progressive reduction or phasing out of market imperfections, fiscal incentives, tax and duty exemptions and subsidies in all greenhouse gas emitting sectors, taking into account the need for energy price reforms to reflect market prices and externalities, in pursuit of the objective of the Convention
- (b) Removing subsidies associated with the use of environmentally unsound and unsafe technologies
- (c) Cooperating in the technological development of non-energy uses of fossil fuels, and supporting developing country Parties to this end
- (d) Cooperating in the development, diffusion and transfer of less greenhouse-gas-emitting advanced fossil-fuel technologies, and/or technologies relating to fossil fuels that capture and store greenhouse gases, and encouraging their wider use; and facilitating the participation of the least developed countries and other Parties not included in Annex I in this effort
- (e) Strengthening the capacity of developing country Parties identified in Article 4, paragraphs 8 and 9, of the Convention for improving efficiency in upstream and downstream activities relating to fossil fuels, taking into consideration the need to improve the environmental efficiency of these activities
- (f) Assisting developing country Parties which are highly dependent on the export and consumption of fossil fuels in diversifying their economies;

9. *Encourages* Parties included in Annex I to adopt policies and measures that will result in reductions in emissions of greenhouse gases, as an effective contribution to minimizing the adverse effects of climate change, and to provide information on these policies and measures in their national communications;

10. *Decides* to review the actions taken by Parties included in Annex I, in accordance with this decision, and to consider, at its third session, what further actions are necessary; among the issues to be considered shall be the establishment of funding, insurance and transfer of technology, pursuant to Article 3, paragraph 14;

11. *Requests* the secretariat to organize, before the second session of the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol, a workshop on reporting methodologies on ways to minimize adverse social, environmental and economic impacts on developing country Parties of the implementation of policies and measures by Parties included in Annex I in achieving their quantified emission limitation and reduction commitments under Article 3, paragraph 1;

12. *Requests* the Subsidiary Body for Scientific and Technological Advice and the Subsidiary Body for Implementation to consider the output of the workshop referred to in paragraph 11 above, and to make recommendations thereon to the second session of the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol.
