OPEN INFORMATION POLICY

(ADOPTED IN JULY 2013)
1. The Adaptation Fund (the Fund) is an organization committed to open access to information. Transparency is essential to building and maintaining public dialogue, increasing public awareness, enhancing good governance, accountability, and ensuring programmatic effectiveness. Openness promotes engagement with stakeholders, which, in turn, improves the design and implementation of projects and programmes, and strengthens the Fund’s outcomes. It facilitates public oversight of Fund-supported operations during their preparation and implementation, which not only assists in exposing potential wrongdoing and corruption, but also enhances the possibility that problems will be identified and addressed early on. This policy refers to the Fund’s Board information.

2. The Fund’s Board overall approach is therefore to disclose information unless there is a compelling reason for confidentiality. For limited cases where disclosure could have a negative impact on the Fund, the implementation of its projects and programmes, or deal with the legal obligations pertaining to privacy or intellectual property, information is retained as confidential. Such exceptions generally fall under one of five main criteria outlined below. In principle, all relevant information regarding the organization, its projects, programmes and operations are made available to the general public with the intent of full disclosure.

3. The five main criteria for exclusion are as follows:
   
   i. **International relations**: Information that may harm the Fund’s relations with other governments or institutions. This includes information received from or sent to third parties, under an expectation of confidentiality.
   
   ii. **Security and safety**: Information that may pose a risk to the security or safety of any individual, including, Board members and alternates and beneficiaries.
   
   iii. **Personal information**: Information that intrudes on the privacy of a person or could contravene confidentiality.
   
   iv. **Commercially sensitive information**: Information that does harm to the Fund or the Fund’s partners or suppliers commercial interests.
   
   v. **Information that is exempt from disclosure under other policies or regulations**: This includes deliberative information.

**Accessing Information**

4. **Proactive Disclosure.** The Fund routinely discloses a wide range of documents, through its website – www.adaptation-fund.org – including working documents discussed during Board meetings, committee reports and recommendations, and reports of all Board meetings. Under this Policy, the Fund significantly increases the amount of information it makes available to the public, particularly information related to projects and programmes under implementation and to the actions of the Board.

5. In terms of projects and programmes all proposals received are published on the website before being reviewed by the secretariat. Since there is no pre-screening of proposals, every proposal received is submitted to the Project and Programme Review Committee (PPRC) and subsequently to the Board for consideration. The Board publishes in its meeting reports a decision taken on every proposal submitted. Following Decision B.17/15, all technical reviews of project and programme proposals undertaken by the secretariat are

published on the Fund’s website. Once projects/programmes are approved all project/programme performance reports are also made available through the website.

Exclusions from Disclosure

6. The Fund does not provide access to information whose disclosure may pose a risk to the security or safety of any individual, including Adaptation Fund Board secretariat staff, Board members and alternates, contractors and beneficiaries, including:

7. **Commerically sensitive information.** While the Fund publishes all project/programme performance reports (including external evaluations and internal reviews), information disclosed on procurement is limited to the number of bidders and bid amounts. In addition, as delineated in the *Rules of procedure of the Adaptation Fund Board* (FCC/KP/CMP/2008/11/Add.2), para 26: “Information obtained from Adaptation Fund project participants marked as proprietary and/or confidential shall not be disclosed without the written consent of the provider of the information, except as required by national law.”

8. **International Relations.** Specifically, as it relates to entities applying for accreditation to the Fund, these are kept anonymous until an entity has been accredited by the Board. As such, the name of the entity as well as all applications and corresponding supporting documentation are kept strictly confidential. The Accreditation Panel produces a report of every Panel meeting, including an assessment of the analysis of applications by applicant entities. Since the assessments contain sensitive information on an institution’s fiduciary standards and institutions provide the Panel with confidential information such as internal audit reports the information remains confidential.

9. **Deliberative Information**. The Fund, like any institution or group, needs space to consider and debate, away from public scrutiny. In practice, the Fund operates by consensus, and it needs room to develop that consensus. During the process it seeks, and takes into account, the input of many stakeholders; but it must preserve the integrity of its deliberative processes by facilitating and safeguarding the free and candid exchange of ideas. Therefore, while the Fund makes publicly available the decisions, results, and agreements that result from its deliberative processes, the proceedings are held in closed sessions for the following bodies: the Accreditation Panel, Ethics and Finance Committee, and Project and Programme Review Committee.

10. The secretariat is subject to the World Bank’s Access to Information Policy.

**Licensing Policy**

11. The following paragraphs set out the Fund’s policy on copyright and other intellectual property (IP) rights related to the data and other information the Fund provides. It also references the specific licenses for how the Fund’s data may be used.
