Contributions

- Enhancing information sharing and awareness on the AF project and other adaptation process;
- Facilitating stakeholders' engagement on the AF project;
- Provision of reliable link between IE and EE vs. non-state actors; and
- Watchdog role to the Implementing and Executing Entity;

➤ Lessons Learnt

- Comprehensive stakeholders' engagement is vital for successful preparation and implementation of AF projects and other climate related projects and initiatives;
- Consistence follow-up, lobbying and advocacy works better than one-off interventions;
- Balancing between watchdog and support role is very important; and
- Harmonization of CSOs network works is vital.
