Connect knowledge resources and mainstream knowledge into AF Operations
Objectives of the AF KM Strategy

- To help **enhance recipient countries’ knowledge** to reduce vulnerability and increase adaptive capacity, especially of the most vulnerable communities.

- To **improve the design and effectiveness of adaptation projects and programs** by creating mechanisms that enable the Fund to extract, analyze, learn and share lessons from the projects and programs it finances.

- To **share Fund’s own data, information and knowledge** to reduce vulnerability and increase adaptive capacity of the countries, ultimately contributing to position climate change adaptation as a global priority.
Adaptation Fund’s KM Framework

- Capture and Transfer Knowledge related to Accreditation, Direct Access and the monetization of Certified Emissions Reduction
- Fostering Broader Knowledge Sharing with countries and all climate change stakeholders including CSOs, Governments, other Funds, Research institutions
- Equipping the Fund with a more supportive knowledge-sharing and learning infrastructure and system
- Promoting a supportive knowledge sharing and learning culture within the Fund
The Role of Implementing Entities

- Compiling data and generating lessons learned from the projects during the implementation phase.

- Sharing this information with the relevant stakeholders:
  - AF Secretariat that would make available a central repository and hub
  - The projects beneficiaries and other local stakeholders

- At project completion, hand over the project knowledge products to successors/partners to ensure long term impact.

- Participating in any Fund driven Knowledge Capture sessions, Workshops and other activities.
AF Guidance on how to develop a project-level KM strategy
