### PROJECTS IN ACTION:

**Ghana**  
Building broader resilience and self-sufficiency amid COVID-19 pandemic by diversifying livelihoods  
Over 7,200 women in 24 communities were supported through agro-processing facilities.

**Georgia**  
Reducing vulnerability of highly exposed communities by implementing climate resilient practices in flood management  
200,000 people were protected from intense flooding. Project scaled up by GCF.

**India**  
Building resilience to health and economic challenges through Women's Self-Help Groups that help meet shortfall of masks during COVID crisis  
About 800 families from 10 villages enhanced livelihoods & 7,300 masks stitched to the requirements of adjoining villages.

**Uzbekistan**  
Maintaining food security and incomes during the COVID-19 pandemic through self-sustaining greenhouses  
5,000 family members maintained incomes without leaving the home. Training provided on greenhouse models.
