

Briefing Note

The Adaptation Fund (AF) finances projects that help vulnerable communities in developing countries adapt and build resilience to the effects of climate change while providing an innovative direct access modality that allows accredited national institutions in developing countries to access financing and manage projects directly.

Reviewed & Approved

- ✓ Efficient
- ✓ Effective
- ✓ Relevant

Pioneering Concrete Adaptation Finance

- Direct Access
- Replicable, scalable
- Flexible, localized

The AF creates tangible, positive results on the ground, focusing on adaptation and strengthening capacity in developing countries for all climate finance mechanisms. The AF has demonstrated its effectiveness as a global financial mechanism.

Key achievements of the Adaptation Fund

- ✓ **105 concrete adaptation projects on the ground approved to date**, benefiting the most vulnerable communities to climate change. Projects are serving more than 9.3 million Direct beneficiaries, and nearly 18 million indirect beneficiaries. The Fund is active in 102 developing countries, with nearly half in LDCs or SIDS;
- ✓ **Serves the Paris Agreement as of Jan 1, 2019**, following a decision at COP24, which recognizes the important role of the Fund in climate finance. AF also continues to serve the Kyoto Protocol. Long term institutional arrangements solidified at COP25 to help ensure AF continues to serve Paris Agreement smoothly;
- ✓ **Delivering and Adapting During COVID-19** Versatile, tailored and locally led climate change adaptation responses with inherent adaptation measures in projects also helping vulnerable communities build broader resilience against environmental, health and economic risks; this approach has allowed projects to further adapt directly to help with the COVID-19 crisis; first climate fund to approve new projects during pandemic through a virtual decision-making process and offers added online trainings, webinars and case studies;
- ✓ **Operationalization of direct access to climate finance**, allowing national institutions to take on the implementation role typically undertaken by UN organizations and MDBs. Throughout the accreditation process, national entities build and enhance local capacity. The Direct Access model, pioneered by the AF, has proven replication value for other climate financing organizations, such as the Green Climate Fund (GCF). AF has accredited more than 30 NIEs to date, and built a growing community of practice where countries share lessons and experiences in adaptation. AF has also accredited a total of over 50 implementing entities;
- ✓ **Medium-term strategy 2018-2022** adopted emphasizing pillars of Action, Innovation and Learning. Strategy implementation plan approved and launched in 2018 to accelerate and enhance quality of adaptation action, scale up proven innovations, and share knowledge of effective adaptation. The strategy is aimed at empowering the most vulnerable, advancing gender equality, strengthening capacity, and building complementarity. Launched US\$ 10 million pilot programme to foster innovation in adaptation and 3 grant windows to accelerate project scale-ups, innovative projects and disseminate knowledge of effective adaptation actions;
- ✓ **Relevancy, efficiency and effectiveness** of AF projects and programmes validated with high marks by the second phase of the independent evaluation of the Fund in June 2018;
- ✓ **Implementation of Readiness Programme** for Climate Finance to build countries' capacities to access funding and develop projects for climate adaptation through regional and global knowledge sharing workshops, field visits and webinars, grants for technical assistance and South-South cooperation. 41 readiness grants approved to date;
- ✓ **Strong, transparent safeguards** in adaptation projects and principles that promote human rights and gender equality while protecting marginalized groups and natural habitats;
- ✓ **Proven ability to ensure an accelerated, simplified, efficient and effective project cycle** combined with orientation towards results and performance-based measurements;
- ✓ **Record high of US\$ 268 million** in new funding requested across record 40 proposals for the 33rd Adaptation Fund Board meeting in March 2019 and record 18 submissions received during intersessional review in June 2020 as well as record US\$ 188 million in new projects approved by Board in 2019, which shows growing demand for adaptation projects;
- ✓ **Committed to supporting the community of practice for direct access entities (CPDAE)** which seeks to enhance the capacities of direct access entities accredited to the AF and GCF to navigate the project life cycles of the two funds and to effectively programme climate finance through concrete projects and programmes, and enhance synergy between funds;
- ✓ **Fast-track Adaptation Fund accreditation process** approved in 2018 for implementing entities that have already been accredited by the Green Climate Fund (GCF). A similar process exists for AF entities to be fast-tracked by GCF. There are similar processes in place for fast track reaccreditation;
- ✓ **Funding window for regional projects and programmes** incorporated as a standing part of the Fund's operations to enable adaptation projects that cross borders. 15 projects approved to date and another technically cleared;
- ✓ **Active civil society involvement at various levels**, such as allowing comments on proposals under consideration, monitoring during implementation, and participation in Board meetings;
- ✓ **Adaptation Fund raised a single-year record US\$ 129 million in new funding in 2018**, showing the great trust placed in its work for the most vulnerable communities of developing countries around the world;
- ✓ **Piloting replicable and scalable concrete adaptation projects** that lead to other climate finance opportunities.

The Paris Agreement and the Adaptation Fund

The Paris Agreement includes adaptation as a key component of the global response to climate change, and the Adaptation Fund is contributing to the objectives of the Agreement through its concrete projects and pioneering Direct Access modality that builds country ownership in adaptation. Moreover, the decision taken by the first meeting of the Parties to the Paris Agreement (CMA) recognizes that the AF should formally serve the Agreement. Following a decision by Kyoto member Parties during COP23 that AF should formally serve the Agreement, during COP24, the CMA decided the Fund shall serve the Paris Agreement, starting from January 1st, 2019. The new market mechanisms of the Paris Agreement also provide an opportunity to utilize the Fund's experience on monetizing carbon assets. To date, the AF has raised US\$ 204.7 million through carbon markets – a system that is fully operational.

The Paris Agreement promotes human rights by acknowledging climate change should be addressed in a way that respects vulnerable populations and gender equality. The AF has stayed ahead of this curve, adopting a policy in 2013 that ensures any projects supported by the Fund must promote positive environmental and social benefits, including respecting human rights, gender equality and vulnerable groups, something that has been specifically acknowledged, among others, by the United Nations Special Rapporteur on human rights and the environment. AF further streamlined equal access across all Fund programmes and resources among women and men in March 2016 by approving a gender policy and action plan and has continued to update its progressive risk management policies.

LONG-TERM CLIMATE FINANCE ROADMAP

- Roadmap established by COP21
- Landmark CMP decision at COP23 that AF shall serve Paris Agreement
- AF serves Paris Agreement as of Jan 1, 2019
- Solidifies long-term institutional arrangements at COP25

Briefing Note

The Adaptation Fund portfolio of concrete adaptation projects and programmes

The AF has transferred about 56 per cent of total committed funds to recipient countries. In total, US\$ 745 million has been allocated for climate adaptation projects/programmes, project formulation activities, South-South cooperation grants for accreditation support and environmental and social policy technical assistance grants, in a total of 102 countries with the majority of projects now in the implementation stage (see Annex II).

Currently 51 implementing entities are accredited to the AF of which 32 are National Implementing Entities in Africa, Latin America and the Caribbean, and Asia-Pacific that have direct access to adaptation financing. Half of the National Implementing Entities are in Small Island Developing States (SIDS) or Least Developed Countries (LDC's), reflecting the Fund's focus on the most vulnerable. So far, 23 NIEs have received funding. The AFB and its secretariat actively collaborate with other climate funds, such as the Green Climate Fund, and share lessons learned from the unique experience of eight years implementing direct access to climate finance.

An opportunity to channel finance to effective adaptation to climate change

The AF is one of the most innovative and unique climate funds, and has achieved impressive progress in just a few years. The AF has proven its effectiveness as a highly efficient and transparent framework for directly channeling adaptation finance to developing countries. It is the only climate adaptation fund that includes the most vulnerable communities as a strategic priority.

The original source of revenue for the Fund – the sale of Certified Emission Reductions (CERs) accrued through a 2 per cent levy on Clean Development Mechanism projects – has drastically diminished due to market forces. The Board has continued to attract funds through developed country donations, by delivering concrete, effective, and localized projects and continuing to innovate through pioneering programmes like Direct Access, Enhanced Direct Access, flexible finance modalities, social and environmental risk management policies and gender action plans. The Fund also developed an alternative streamlined accreditation process to open doors to climate finance for smaller countries and organizations, and further has in place an innovative funding window for regional projects and programmes for multiple countries facing climate change issues that cross borders, in addition to offering new project scale-up, learning and innovation grants.

The Board has established a cap of 50 per cent of the cumulative resources in the trust fund for projects submitted by MIEs in order to ensure that all accredited NIEs can receive funding for at least one project. However, funding requests for the 33rd Adaptation Fund Board meeting in 2019 hit a record high of US\$ 268 million with 40 project proposals, and with more funding and sustainable funding sources, AF could address that growing demand. As a strong signal of support, the Adaptation Fund broke its single-year resource mobilization record, with US\$ 129 million in new pledges for 2019, and nearly reached its US\$ 90 million target during a challenging COP25 with US\$ 89 million raised, reflecting the wide trust for the Fund's work and these pledges will help the AF reach even more vulnerable communities in developing countries with urgently needed climate adaptation solutions. The Fund also began formally serving the Paris Agreement in 2019, and has continued to innovate and adapt to vulnerable countries' needs, continuously delivering effectively on its mandate including through the COVID-19 crisis.

Accessing Resources from the Adaptation Fund

Potential implementing entities are evaluated by independent experts of the Accreditation Panel for compliance with the AF's fiduciary standards and requirements of the AF environmental and social policy. Implementing entities can be national, regional or multilateral. There are currently 13 accredited multilateral implementing entities, 6 regional implementing entities and 32 national implementing entities of which 16 (50 per cent) come from either LDCs or SIDS. All developing country Parties to the Kyoto Protocol are eligible to submit a national entity for accreditation. Once accredited, implementing entities can apply for funding of up to US\$ 10 million per country for concrete adaptation projects or programmes. Multiple countries can also submit collaborative regional proposals up to US\$ 14 million through implementing entities.

National Implementing Entities (NIEs)

Antigua & Barbuda: Department of Environment (DoE)

Argentina: General Directorate of Sectoral and Special Programs and Projects (DIPROSE)

Armenia: Environmental Project Implementation Unit (EPIU)

Belize: Protected Areas Conservation Trust (PACT)

Benin: Fond National pour l'Environnement et le Climat (FNEC)

Bhutan: Bhutan Trust Fund for Environment Conservation (BTFC)

Chile: Agencia chilena de Cooperación Internacional para el Desarrollo (AGCID)

Cook Islands: Ministry of Finance and Economic Management (MFEM)

Costa Rica: Fundecooperación

Côte d'Ivoire: Interprofessional Fund for Agricultural Research and Advice (FIRCA)

Dominican Republic: Dominican Institute of Integral Dev. (IDDI)

Ethiopia: Ministry of Finance and Economic Dev. (MOFED)

Fed. States of Micronesia: Micronesia Conservation Trust (MCT)

India: National Bank for Agriculture & Rural Dev. (NABARD)

Indonesia: Partnership for Governance Reform (Kemitraan)

Jamaica: Planning Institute of Jamaica (PIOJ)

Jordan: Ministry of Planning and Int. Cooperation (MOPIC)

Kenya: National Environment Management Authority (NEMA)

Mexico: Mexican Institute of Water Technology (IMTA)

Morocco: Agency for Agricultural Development (ADA)

Namibia: Desert Research Foundation (DRFN)

Niger: Banque Agricole du Niger (BAGRI)

Panama: Fundación Natura

Peru: Trust Fund for Nat'l Parks and Protected Areas (PROFONANPE)

Rwanda: Ministry of Environment (MoE)

Senegal: Centre de Suivi Ecologique (CSE)

South Africa: National Biodiversity Institute (SANBI)

Tuvalu: Ministry of Finance and Economic Development (MFED)

Uganda: Ministry of Water and Environment of Uganda

United Republic of Tanzania: National Environment Management Council (NEMC)

Uruguay: Agencia Nacional de Investigación e Innovación (ANII)

Zimbabwe: Environmental Management Agency (EMA)

Regional Implementing Entities (RIEs)

Caribbean Development Bank (CDB)

Central American Bank for Economic Integration (CABEI)

Corporación Andina de Fomento (CAF)

Observatoire du Sahara et du Sahel (OSS)

Secretariat of the Pacific Regional Environment Programme (SPREP)

West African Development Bank (BOAD)

Multilateral Implementing Entities (MIEs)

African Development Bank (AfDB)

Asian Development Bank (ADB)

International Fund for Agricultural Development (IFAD)

Inter-American Development Bank (IDB)

ADAPTATION FUND

Annex II:

Projects, programmes and readiness grants approved for funding from the Adaptation Fund, as of July 2020

Project, programmes, project formulation grants (PFG), readiness grants and new innovation, scale-up and learning grants approved for funding from the Adaptation Fund

COUNTRY	PROJECT TITLE	ENTITY	BUDGET (US\$)
---------	---------------	--------	---------------

Implemented by National Implementing Entities

Afghanistan	Accreditation support project	NABARD	50,000
Antigua and Barbuda	An integrated approach to physical adaptation and community resilience in Antigua and Barbuda's northwest McKinnon's watershed (including PFG)	DoE	10,000,000
Antigua and Barbuda	Environmental and social and gender policy technical assistance grant	DoE	25,000
Argentina	Enhancing the Adaptive Capacity and Increasing Resilience of Small-size Agriculture Producers of the Northeast of Argentina (including PFG)	DIPROSE	5,670,000
Armenia	Artik city closed stone pit and flood management pilot project (including PFG)	EPIU	1,462,100
Armenia	Strengthening land based adaptation capacity in communities adjacent to protected areas in Armenia (including PFG)	EPIU	2,536,000
Armenia	Engaging future leaders: digital education module on adaptation challenges and best practices for youth (Innovation Grant)	EPIU	231,250
Armenia	Environmental and social and gender policy technical assistance grant	EPIU	19,500
Belize	Enhancing the Resilience of Belize's Coastal Communities to Climate Change Impacts (PFG)	PACT	30,000
Benin	Adaptation of Cotonou Lagoon ecosystems and human communities to sea level rise and extreme weather events impacts (PFG)	FNEC	29,000
Benin	Environmental and social policy technical assistance grant	FNEC	20,000
Bhutan	Environmental and social and gender policy technical assistance grant	BTFEC	25,000
Botswana	South-South Cooperation Grant (SSC)	NEMA	50,000
Burundi	Accreditation support project	CSE	50,000
Burundi	Readiness Support Pilot Phase (FY18) South-south support	CSE	50,000
Cabo Verde	Accreditation support project	CSE	47,449
Chad	Accreditation support project	CSE	49,592
Chile	Enhancing resilience to climate change of the small agriculture in the Chilean region of O'Higgins (including PFG)	AGCIG	9,990,000
Chile	Water Security: Enhancing sustainable Water Use and Disaster Resilience in low-income suburban areas of the Valparaíso Region (Innovation Grant)	AGCID	230,000

Project, programmes, project formulation grants (PFG), readiness grants and new innovation, scale-up and learning grants approved for funding from the Adaptation Fund

Regional (Antigua and Barbuda, Dominica, Saint Lucia)	Increasing resilience of the education system to climate change impacts in the Eastern Caribbean region (PFG)	UN-Habitat	20,000
Regional (Argentina, Brazil, Paraguay)	Building multi-level resilience through better water management in a transboundary urban setting (PFG)	UN-Habitat	20,000
Regional (Azerbaijan, Iran)	Urbanisation and Climate Change Adaptation in the Caspian Sea Region (PFG)	UN-Habitat	20,000
Regional (Benin, Burkina Faso, Côte d'Ivoire, Ghana, Mali, Togo)	Integrating Flood and Drought Management and Early Warning for Climate Change Adaptation in the Volta Basin (including PFG)	WMO	8,020,000
Regional (Burundi, Kenya, Rwanda, United Republic of Tanzania, Uganda)	Adapting to Climate Change in Lake Victoria Basin (including PFG)	UNEP	5,100,000
Regional (Cambodia, Lao PDR, Myanmar, Thailand, Viet Nam)	Groundwater resources in the Greater Mekong Subregion: Collaborative management to increase climate change resilience (PFG)"	UNESCO	80,000
Regional (Cambodia, Nepal, Philippines, Thailand)	Building the Resilience of Persons with Disabilities to Cope with Climate Change in the Asia Pacific Region (PFG)	UNDP	20,000
Regional (Chile, Colombia, Peru)	Enhancing Adaptive Capacity of Andean Communities through Climate Services (ENANDES) (including PFG)	WMO	7,532,204
Regional (Colombia, Ecuador)	Building adaptive capacity through food and nutrition security and peace-building actions in vulnerable Afro and indigenous communities in the Colombia-Ecuador border area (including PFG)	WFP	14,100,000
Regional (Comoros, Madagascar, Malawi, Mozambique)	Building Urban Climate Resilience in South-eastern Africa (including PPG)	UN-Habitat	14,077,423
Regional (Cote d'Ivoire, Ghana)	Improved resilience of coastal communities in Cote d'Ivoire and Ghana (PFG)	UN-Habitat	100,000
Regional (Cuba, Dominican Republic, Jamaica)	Risk Reduction Management Centres: local adaptation response to national climate and early warning information in the Caribbean (PFG)	UNDP	100,000
Regional (El Salvador, Honduras)	Improve Livelihood Resilience through Community-based Climate Change Adaptation in the Transboundary Watershed of Goascorán in El Salvador and Honduras (PFG)	WFP	20,000

Project, programmes, project formulation grants (PFG), readiness grants and new innovation, scale-up and learning grants approved for funding from the Adaptation Fund

COUNTRY PROJECT TITLE ENTITY BUDGET (US\$)

Implemented by Multilateral Implementing Entities

Regional (Ethiopia, Kenya, Uganda)	Agricultural Climate Resilience Enhancement Initiative (ACREI)	WMO	6,800,000
Regional (Jordan, Lebanon)	Increasing the Resilience of Displaced Persons to Climate Change-related Water Challenges in Urban Host Settlements	UN-Habitat	20,000
Regional (Kazakhstan, Tajikistan, Uzbekistan)	Reducing vulnerabilities of populations in the Central Asia region from glacier lake outburst floods in changing climate (PFG)	UNESCO	77,200
Regional (Mauritius, Seychelles)	Restoring marine ecosystem services by rehabilitating coral reefs to meet a changing climate future (including PFG)	UNDP	10,100,000
Republic of Moldova	Talent Retention for Rural Transformation - Adapt (TRTP-Adapt)	IFAD	6,008,095
Samoa	Enhancing Resilience of Samoa's Coastal Communities to Climate Change	UNDP	8,732,351
Seychelles	Ecosystem Based Adaptation to Climate Change in Seychelles	UNDP	6,455,750
Sierra Leone	Promoting Climate Resilience in the Cocoa and Rice Sectors as an Adaptation Strategy in Sierra Leone	IFAD	9,916,925
Solomon Islands	Enhancing resilience of communities in Solomon Islands to the adverse effects of climate change in agriculture and food security	UNDP	5,533,500
Solomon Islands	Enhancing urban resilience to climate change impacts and natural disasters	UN-Habitat	4,395,877
Sri Lanka	Addressing Climate Change Impacts on Marginalized Agricultural Communities Living in the Mahaweli River Basin of Sri Lanka	WFP	7,989,727
Tajikistan	An integrated landscape approach to enhancing the climate resilience of small-scale farmers and pastoralists in Tajikistan	UNDP	9,996,441
Tunisia	Economic, Social and Solidarity Insertion for Resilience in the Governorate of Kairouan (IESS Adapt)	IFAD	9,997,190
Turkmenistan	Addressing climate change risks to farming systems in Turkmenistan at national and community level	UNDP	2,929,500
United Republic of Tanzania	Implementation Of Concrete Adaptation Measures To Reduce Vulnerability Of Livelihood and Economy Of Coastal Communities In Tanzania	UNEP	5,008,564
Uzbekistan	Developing climate resilience of farming communities in the drought prone parts of Uzbekistan in the drought prone parts of Uzbekistan	UNDP	5,415,103
Viet Nam	Enhancing the resilience inclusive and sustainable eco-human settlement development through small scale infrastructure interventions in the coastal regions of the Mekong Delta in Viet Nam	UN-Habitat	6,345,292
Total, MIE			445,997,694
Grand Total			744,954,752
