

Technology Small grants Accelerator: the partnership

- Hosted by UN Environment, the Climate Technology Centre and Network (CTCN) is the operational arm of the UNFCCC Technology Mechanism
- The CTCN has:
 - - invested over \$US 40 million in climate technology development, transfer and deployment
 - - supported 79 countries
 - - implemented 137 technology projects
 - - trained over 2,500 beneficiaries

Technology Small grants Accelerator: the outlines of the mechanism

- The Small Grants Aggregator will support countries to test, evaluate, roll out and scale up innovative adaptation practices, products and technologies
- The partnership between the Adaptation Fund and the CTCN is a concrete example of collaboration between the financial and technology mechanisms of the Convention
- Countries will benefit from this partnership through:
 - - access to grants up to \$250,000
 - - engagement with CTCNs 450 public and private Network Members
 - - CTCN co-funding on a 1 to 1 basis
 - - extensive knowledge management and capacity building services
