Technology Small grants
Accelerator: the partnership

- Hosted by UN Environment, the Climate Technology Centre and Network (CTCN) is the operational arm of the UNFCCC Technology Mechanism

- The CTCN has:
  - invested over $US 40 million in climate technology development, transfer and deployment
  - supported 79 countries
  - implemented 137 technology projects
  - trained over 2,500 beneficiaries
Technology Small grants Accelerator: the outlines of the mechanism

• The Small Grants Aggregator will support countries to test, evaluate, roll out and scale up innovative adaptation practices, products and technologies

• The partnership between the Adaptation Fund and the CTCN is a concrete example of collaboration between the financial and technology mechanisms of the Convention

• Countries will benefit from this partnership through:
  • - access to grants up to $250,000
  • - engagement with CTCNs 450 public and private Network Members
  • - CTCN co-funding on a 1 to 1 basis
  • - extensive knowledge management and capacity building services
