What is a community of Practice?

Communities of Practice can...

help support us

and give us confidence
and motivation

help us share our
knowledge

and join up related work

help us scale our
ways of working

and share common
approaches across teams

help us learn and
grow our skills

and get better at
what we do, together

help us collaborate

and create better
practices for everyone

Purpose

to provide an avenue for knowledge exchange, learning and experience sharing, collaboration and peer support within the community of **NIE's and DAE's** involved in the programming of climate change adaptation and mitigation finance, aiming **to increase the effectiveness of entities** in accessing resources and implementing adaptation and mitigation projects and programs through direct access.

Objectives

Benefits
