

➤ "Environmental Project Implementation Unit" State Agency

# Armenia

## **'Environmental Project Implementation Unit' State Agency**

### **Project Name:**

"Engaging future leaders: digital education module on adaptation challenges and best practices for youth"

### **Speaker:**

Vahagn Babayan

### **Date:**

December 9, 2021

# Today's Agenda

I. Project Overview

II. Submission and Approval

III. Challenges while accessing the Grant

III. Advises for other NIEs

# Project Overview

## Project Budget

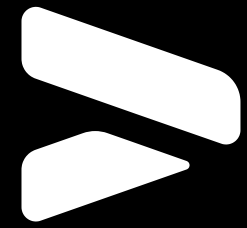

USD 231.250

## Project Implementation Period

2020-2023

## Project Objective

The overall objective of the project is to educate new generation of environmentally cultured young change makers (with particular focus on climate adaptation) in developing countries through design and introduction of replicable and sustainable digital education solution for high school students.

# Project Components

## **Establishing**

Theoretical base for the gamified digital solution

## **Designing**

Digital gamified educational module for high school students

## **Testing**

Developed module among 100 schools located in different regions of the country

## **Advancing**

The module based on the results of the test-run and design tri-lingual mobile application

## **Facilitating**

Knowledge sharing and application

# Latest Statistics

The implementation of the first component of the project has been completed, during which the following activities have been carried out:

- Map of the “hot-spots” of Armenia in terms of climate adaptation challenges;
- Set of political priorities of Armenia in climate adaptation;
- Repository of best practices in implementing climate adaptation projects.

At the moment "Environmental Project Implementation Unit" State Agency is implementing the second component, within the framework of which a digitally gamified educational module is being created.

# Submission and Approval

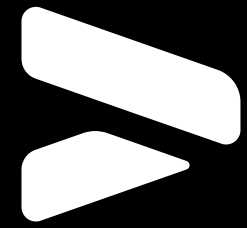

- **Submission of the Project Document**  
On 30 December, 2018
- **Comments received from AF**  
On 31 January, 2019
- **Submission of the revised Project Document**  
On 4 February, 2019
- **Approval from the AF**  
On 13 November, 2019

# Challenges while accessing the Grant

# Advice for other NIEs

## Needs Assessment

The project's needs should be assessed in an appropriate and detailed manner.

## Capacity Assessment

NIEs should have a clear understanding of their capacities needed for the successful implementation of the Project.

## Effective Communication

The whole process should be based on trustworthy and interactive communication with Adaptation Fund.

## International Experience

NIEs should study the best practices in the international environment in order to apply them in accordance with their needs.

## Cooperation with Experienced Institutions

The successful implementation of the project requires high-quality consultations with institutions that have professional experience in innovative projects.
