

ADAPTATION FUND

AFB/PPRC.29/15/Add.1
6 March 2022

Adaptation Fund Board
Project and Programme Review Committee
Twenty-ninth Meeting
Bonn, Germany, 4-8 April 2022

**PROJECT FORMULATION GRANT FOR
HONDURAS**

I. Background

1. The Board at its eleventh meeting discussed the document “Funding for Project Formulation Costs” (AFB/11/6) and agreed, in its Decision B.11/18, that:

- i. project formulation grants (PFG) should be given once a project concept has been approved;
- ii. consideration should be given in terms of differentiating between NIEs and MIEs, since some NIEs might have financial difficulties in trying to formulate project or programme proposals;
- iii. a flat rate should be given for project formulation costs;
- iv. a list of eligible activities and items still needed to be prepared;
- v. the grant should be additional to the project cost; and
- vi. the fate of funds if the final project document was rejected should be determined.

2. There was consensus that a three-tiered system should be considered for project formulation grants: endorse a project concept with a PFG amount, endorse a project concept without a PFG amount, or reject the project concept.

3. Following the discussion, the Board decided:

To request the secretariat to reformulate the document, to include a comparison of eligible activities provided by other funds for project formulation grants, to take into account guidance provided by the Board at the present meeting, and to submit the document to the Board at its twelfth meeting, through the EFC. The EFC should review and finalize the process and policy of the project formulation grant focusing, in particular, on: the issue of unspent project funds; the procedures followed by other funds in that regard; and the determination of a flat-rate.

4. A document was prepared by the secretariat in response to the above mandate and presented at the third EFC meeting, which made specific recommendations to the Board at its twelfth meeting. Having considered the recommendation of the Ethics and Finance Committee, the Board, in its Decision B.12/28, decided that:

(a) Project Formulation Grants (PFGs) will only be made available for projects submitted through NIEs. The Board would continue reviewing the question of PFGs for projects submitted through MIEs and would solicit comments from members and alternate members by February 14, 2011; the views would be compiled by the secretariat for presentation to the Board at its March 2011 meeting;

(b) If a country required a project formulation grant, a request should be made at the same time as the submission of a project concept to the secretariat. The secretariat will review and forward it to the PPRC for a final recommendation to the Board. A PFG could only be awarded when a project concept was presented and endorsed;

(c) A PFG form, reproduced in Annex V, should be submitted;

- (d) Only activities related to country costs would be eligible for PFG funding;*
- (e) A flat rate of up to US\$30,000 shall be provided, inclusive of the management fee, which cannot exceed 8.5 per cent of the grant amount. The flat fee would be reviewed by the Board at its thirteenth and all subsequent meetings;*
- (f) If the final project document is rejected, any unused funds shall be returned to the Adaptation Fund Trust Fund;*
- (g) Once a project/programme formulation grant is disbursed, a fully developed project document should come to the Board for approval within 12 months. No additional grants for project preparation can be received by a country until the fully developed project/programme document has been submitted to the Board; and*
- (h) The Trustee was instructed to remove the set-aside of US\$100,000 for project preparation that had been decided at the June 2010 meeting, as project preparation would be approved on a project-by-project basis.*

5. In its twenty-fourth meeting, the Board had initiated steps to launch a pilot programme on regional projects and programmes, not to exceed US\$ 30 million and had requested the secretariat to prepare for the consideration of the Board a proposal for such a pilot programme (Decision B.24/30). In its twenty-fifth meeting, the secretariat submitted such document and the Board decided to:

- (a) Approve the pilot programme on regional projects and programmes, as contained in document AFB/B.25/6/Rev.2;*
- (b) Set a cap of US\$ 30 million for the programme;*
- (c) Request the secretariat to issue a call for regional project and programme proposals for consideration by the Board in its twenty-sixth meeting; and*
- (d) Request the secretariat to continue discussions with the Climate Technology Center and Network (CTCN) towards operationalizing, during the implementation of the pilot programme on regional projects and programmes, the Synergy Option 2 on knowledge management proposed by CTCN and included in Annex III of the document AFB/B.25/6/Rev.2.*

(Decision B.25/28)

6. The approved document AFB/B.25/6/Rev.2 contained provisions for the approval of project formulated grants for regional project and programme proposals, at different development stages, as follows:

“It is proposed that the Board open a structured call for MIEs and RIEs to submit pre-concepts for regional projects and programmes. The optional pre-concepts would be very brief proposals of maximum 5 pages that would explain the proposed regional adaptation project/programme. The pre-concepts would be screened and technically

reviewed by the secretariat, and subsequently reviewed by the PPRC. Together with the pre-concept, the proponent could submit a Phase I PFG request, up to the maximum level of US\$ 20,000. While endorsing the pre-concept, the Board could also approve the Phase I PFG request. The endorsement of the pre-concept would not create an obligation for the Board for later funding. As the next step, the proponent would submit a concept, and with it the proponent could submit a Phase II PFG request. The maximum AFB/PPRC.18/25/Add.1 level of the Phase II PFG would be US\$ 80,000 for proposals that had been previously granted Phase I PFG, and US\$ 100,000 for proposals that bypassed the optional pre-concept stage. While endorsing the concept, the Board could also approve the Phase II PFG request. The endorsement of the concept would not create an obligation for the Board for later funding, as it is the case for the national projects. The final stage of the proposal process would be the submission of the fully-developed regional project document”.

7. In its thirty-seventh meeting, the Board decided to raise the maximum of individual project formulation grants available to national implementing entities:

(d) To raise the maximum amount of individual project formulation grants available to national implementing entities to US\$ 50,000

(Decision B.37/1 (d))

II. The Project Formulation Grant Request

8. This addendum to the document AFB/PPRC.29/15 “Proposal for Honduras” includes a request for a Project Formulation Grant, requesting a budget of US\$ 50,000, which was received by the secretariat along with the concept for the project AF00000258 “*Let’s save the Merendon*”. This proposal was submitted by Comisión de Acción Social Menonita (CASM), which is a National Implementing Entity of the Adaptation Fund, in time for consideration by the Adaptation Fund Board at its thirty-eighth Board meeting.

9. In accordance with Decision B.12/28, paragraph (b), the secretariat carried out an initial review of the PFG request and found that the document provided detailed information on the use of the requested funds. The proposed activities were aligned with the goal of the project and would support the preparation of the fully developed proposal, consultations at local and national level, socioeconomic and natural resources studies, and a local needs assessment.

10. Therefore, the PPRC may want to consider and recommend to the Board to approve the PFG Request, provided that the related concept proposal is endorsed.

Project Formulation Grant (PFG)

Submission Date:

Adaptation Fund Project ID:
 Country/ies: Honduras, CA
 Title of Project/Programme: Let's Save The Merendon
 Type of IE (NIE/MIE): NIE
 Implementing Entity: Comision de Accion Social Menonita (CASM)
 Executing Entity/ies: Cuerpos de conservación de Omoa (CCO), FENAPROCACAO

A. Project Preparation Timeframe

Start date of PFG	April 2022
Completion date of PFG	Julio 2022

B. Proposed Project Preparation Activities (\$)

Describe the PFG activities and justifications:

List of Proposed Project Preparation Activities	Output of the PFG Activities	USD Amount
Contracting of Specialized Services for the formulation of the proposal	Specialized consultants to direct the process of formulating the complete proposal and organize the documents for AF	\$ 16,000
Formation and meetings of the formulation team	Team under the direction of the specialist who establishes and executes a path for developing the complete proposal	\$ 2,000
Gender Study	It is necessary to identify how gender relations occur and the participation of women and men in the family, community, productive and political spheres, as well as in the adaptation to climate change. It will identify strategies to incorporate and guarantee gender equity in the project	\$ 4,000
Territorial Diagnosis	It is necessary to identify the main characteristics and critical points of the intervention area in the	\$ 8,000

	demographic, social, cultural, economic, environmental and political aspects, which will provide more precise information for the definition of the project intervention strategy.	
Study of natural resources use in the Sierra de El Merendon and climatic scenarios	It is necessary to identify the most common uses of the natural resource (water, soil and forest) in the area, who have access to it and the decision-making process related to those resources. Furthermore, develop more accurate climatic scenarios linked to the management of these natural resources in this area, which will allow to have a technical proposal for their efficient and sustainable use and especially an efficient adaptation approach, which must be incorporated into the project strategy	\$ 6,000
Socioeconomic and productive study in the Coordillera El Merendon	A study that identifies the productive areas developed, and those that can adopt strategies for adaptation to climate change and environmental sustainability. In addition, identify social structures, their strengths, weaknesses and relationships with local and national authorities. This study should also identify relevant points that make visible the social profitability and the cost-benefit analysis of the intervention.	\$ 6,000
Meetings with local authorities and central government institutions	Ensure the participation of local governments and national authorities in the planning and implementation of the project	\$ 3,000

Consultations with local actors in Territories	Identification and prioritization of the lines of action of the components and ensure the participation of these actors in the project	\$ 3,000
Complete proposal formulation	Proposal document according to the requirements of the AF	\$ 2,000
Total Project Formulation Grant		\$ 50,000

C. Implementing Entity

This request has been prepared in accordance with the Adaptation Fund Board's procedures and meets the Adaptation Fund's criteria for project identification and formulation
