

ADAPTATION FUND

AFB/PPRC.29-30/12/Add.1  
15 June 2022

---

Adaptation Fund Board  
Project and Programme Review Committee

**PROJECT FORMULATION GRANT FOR  
CAMEROON, CENTRAL AFRICAN REPUBLIC, CHAD, NIGER, NIGERIA**

## I. Background

1. The Board at its eleventh meeting discussed the document "Funding for Project Formulation Costs" (AFB/11/6) and agreed, in its Decision B.11/18, that:

- i. project formulation grants (PFG) should be given once a project concept has been approved;
- ii. consideration should be given in terms of differentiating between NIEs and MIEs, since some NIEs might have financial difficulties in trying to formulate project or programme proposals;
- iii. a flat rate should be given for project formulation costs;
- iv. a list of eligible activities and items still needed to be prepared;
- v. the grant should be additional to the project cost; and
- vi. the fate of funds if the final project document was rejected should be determined.

2. There was consensus that a three-tiered system should be considered for project formulation grants: endorse a project concept with a PFG amount, endorse a project concept without a PFG amount, or reject the project concept.

3. Following the discussion, the Board decided:

To request the secretariat to reformulate the document, to include a comparison of eligible activities provided by other funds for project formulation grants, to take into account guidance provided by the Board at the present meeting, and to submit the document to the Board at its twelfth meeting, through the EFC. The EFC should review and finalize the process and policy of the project formulation grant focusing, in particular, on: the issue of unspent project funds; the procedures followed by other funds in that regard; and the determination of a flat-rate.

4. A document was prepared by the secretariat in response to the above mandate and presented at the third EFC meeting, which made specific recommendations to the Board at its twelfth meeting. Having considered the recommendation of the Ethics and Finance Committee, the Board, in its Decision B.12/28, decided that:

*(a) Project Formulation Grants (PFGs) will only be made available for projects submitted through NIEs. The Board would continue reviewing the question of PFGs for projects submitted through MIEs and would solicit comments from members and alternate members by February 14, 2011; the views would be compiled by the secretariat for presentation to the Board at its March 2011 meeting;*

*(b) If a country required a project formulation grant, a request should be made at the same time as the submission of a project concept to the secretariat. The secretariat will review and forward it to the PPRC for a final recommendation to the Board. A PFG could only be awarded when a project concept was presented and endorsed;*

*(c) A PFG form, reproduced in Annex V, should be submitted;*

- (d) Only activities related to country costs would be eligible for PFG funding;*
- (e) A flat rate of up to US\$30,000 shall be provided, inclusive of the management fee, which cannot exceed 8.5 per cent of the grant amount. The flat fee would be reviewed by the Board at its thirteenth and all subsequent meetings;*
- (f) If the final project document is rejected, any unused funds shall be returned to the Adaptation Fund Trust Fund;*
- (g) Once a project/programme formulation grant is disbursed, a fully developed project document should come to the Board for approval within 12 months. No additional grants for project preparation can be received by a country until the fully developed project/programme document has been submitted to the Board; and*
- (h) The Trustee was instructed to remove the set-aside of US\$100,000 for project preparation that had been decided at the June 2010 meeting, as project preparation would be approved on a project-by-project basis.*

5. In its twenty-fourth meeting, the Board had initiated steps to launch a pilot programme on regional projects and programmes, not to exceed US\$ 30 million and had requested the secretariat to prepare for the consideration of the Board a proposal for such a pilot programme (Decision B.24/30). In its twenty-fifth meeting, the secretariat submitted such document and the Board decided to:

- (a) Approve the pilot programme on regional projects and programmes, as contained in document AFB/B.25/6/Rev.2;*
- (b) Set a cap of US\$ 30 million for the programme;*
- (c) Request the secretariat to issue a call for regional project and programme proposals for consideration by the Board in its twenty-sixth meeting; and*
- (d) Request the secretariat to continue discussions with the Climate Technology Center and Network (CTCN) towards operationalizing, during the implementation of the pilot programme on regional projects and programmes, the Synergy Option 2 on knowledge management proposed by CTCN and included in Annex III of the document AFB/B.25/6/Rev.2.*

*(Decision B.25/28)*

6. The approved document AFB/B.25/6/Rev.2 contained provisions for the approval of project formulated grants for regional project and programme proposals, at different development stages, as follows:

*“It is proposed that the Board open a structured call for MIEs and RIEs to submit pre-concepts for regional projects and programmes. The optional pre-concepts would be very brief proposals of maximum 5 pages that would explain the proposed regional adaptation project/programme. The pre-concepts would be screened and technically reviewed by the*

*secretariat, and subsequently reviewed by the PPRC. Together with the pre-concept, the proponent could submit a Phase I PFG request, up to the maximum level of US\$ 20,000. While endorsing the pre-concept, the Board could also approve the Phase I PFG request. The endorsement of the pre-concept would not create an obligation for the Board for later funding. As the next step, the proponent would submit a concept, and with it the proponent could submit a Phase II PFG request. The maximum AFB/PPRC.18/25/Add.1 level of the Phase II PFG would be US\$ 80,000 for proposals that had been previously granted Phase I PFG, and US\$ 100,000 for proposals that bypassed the optional pre-concept stage. While endorsing the concept, the Board could also approve the Phase II PFG request. The endorsement of the concept would not create an obligation for the Board for later funding, as it is the case for the national projects. The final stage of the proposal process would be the submission of the fully-developed regional project document”.*

7. In its thirty-seventh meeting, the Board decided to raise the maximum of individual project formulation grants available to national implementing entities:

*(d) To raise the maximum amount of individual project formulation grants available to national implementing entities to US\$ 50,000*

**(Decision B.37/1 (d))**

## **II. The Project Formulation Grant Request**

8. This addendum to the document AFB/PPRC.29-30/12 “Proposal for Cameroon, Central African Republic, Chad, Niger, and Nigeria” includes a request for a Project Formulation Grant, requesting a budget of US\$ 80,000, which was received by the secretariat along with the concept for the regional project AF00000224 *“Integrated Water Resources Management and Early Warning System for Climate Change Resilience in the Lake Chad Basin”*. This proposal was submitted by the World Meteorological Organization (WMO), which is a Multilateral Implementing Entity of the Adaptation Fund, in time for consideration by the Adaptation Fund Board during the intersessional period at its thirty-eighth and thirty-ninth Board meeting.

9. In accordance with Decision B.12/28, paragraph (b), the secretariat carried out an initial review of the PFG request and found that the document provided detailed information on the use of the requested funds. The proposed activities were aligned with the goal of the project and would conduct consultations/interviews with agencies, partners and stakeholders in the Lake Chad Basin, regional workshops, and would support the development of the environmental and social risks management plan, including gender aspects in alignment with the Fund’s Gender Policy.

10. Therefore, the PPRC may want to consider and recommend to the Board to approve the PFG Request, provided that the related concept proposal is endorsed.

## Project Formulation Grant (PFG)

Submission Date: 27 April, 2022

Adaptation Fund Project ID:

Countries:

Title of Project:

Cameroon, Central African Rep., Chad, Niger, Nigeria  
Integrated water resources management and early warning system for climate change resilience in the Lake Chad Basin

Type of IE (NIE/MIE):

Implementing Entity:

Executing Entities:

Multilateral implementing entity  
World Meteorological Organization (WMO)  
Lake Chad Basin Commission (LCBC), Global Water Partnership Central Africa (GWP-CAf)

### A. Project Preparation Timeframe

Start date of PFG	<b>August 2022</b>
Completion date of PFG	<b>January 2023</b>

### B. Proposed Project Preparation Activities (\$)

Describe the PFG activities and justifications:

List of Proposed Project Preparation Activities	Outputs of the PFG Activities	USD Amount
<ul style="list-style-type: none"> <li>Hire consultants to organize and conduct consultations/interviews with agencies, partners and stakeholders in the Lake Chad Basin to understand in more detail user needs for services and to create linkages with existing projects, available services and communication channels.</li> </ul>	<ul style="list-style-type: none"> <li>Meetings and consultations are successfully conducted, documented and shared with WMO and executing partners.</li> <li>User needs and communication need is better understood and incorporated in the project activities.</li> <li>Linkages and synergies with other projects are fully utilized in the fully developed proposal.</li> </ul>	20,000 USD
<ul style="list-style-type: none"> <li>Arrange at least one regional consultation workshop with project partners (executing and implementing agencies) and all five participating countries, potential new collaborators, and national beneficiaries with a possibility to have separate</li> </ul>	<ul style="list-style-type: none"> <li>Roles and responsibilities of each stakeholder well assigned/defined and timetable of activities agreed.</li> <li>Budget estimates of activities agreed.</li> </ul>	30,000 USD

consultations at national level if needed to clarify activities proposed and roles of the partners. To foster sustainability and the ownership of the project in the region.	<ul style="list-style-type: none"> <li>Partners' activities are allocated.</li> <li>Project sustainability and ownership plan is adopted with countries and partners.</li> </ul>	
<ul style="list-style-type: none"> <li>Hire consultants to contribute to the development of the environmental and social risks management plan of the Lake Chad Basin through the Environmental Impact Assessment (EIA) and Social Impact Assessment (SIA) study aligning with the Environmental and Social Policy (ESP) of the Adaptation Fund and to fully include gender aspects in the proposal according to Adaptation Fund Gender Policy (GP) and Gender Action Plan (GAP)</li> </ul>	<ul style="list-style-type: none"> <li>EIA and SIA studies are carried out jointly with the National and Regional stakeholders and joint report is shared.</li> <li>Environmental and social risks management plan is available and included in the fully developed proposal.</li> <li>Identified gender aspects are fully included in the fully developed proposal.</li> </ul>	30,000 USD
Total Project Formulation Grant		80,000 USD *

\* : the amount is inclusive of 7% fee for the Implementing entity

### C. Implementing Entity

This request has been prepared in accordance with the Adaptation Fund Board's procedures and meets the Adaptation Fund's criteria for project identification and formulation
