Overview: CPDAE

A **global network** integrated by National Implementing Entities (**NIEs**) of the Adaptation Fund (**AF**) and Direct Access Entities (**DAEs**) of the Green Climate Fund (**GCF**), involved in the programming of climate change adaptation and mitigation finance through the **Direct Access Modality**.

*Best practice approach to **enhance country ownership** of climate projects*

The purpose of the CPDAE:

Provide an opportunity for knowledge exchange, learning and experience sharing, collaboration and peer support within the community (and at a global scale) to:

- Increase the effectiveness of entities in accessing resources
- Programming those resources
- Implementing adaptation and mitigation projects and programs
- Through the Direct Access Modality

Objective of the Readiness

Strengthen the CPDAE at an institutional level, and the capacity of its members to perform better and access climate finance and develop and implement adaptation and mitigation projects and programs efficiently.
