Ex-post training (2022) - expectations survey

Dear stakeholder,
Thank you for participating in our training today!
Please let us know your expectations about the ex post evaluation training.

First Name

Last Name

Organization

1] Please tell us about your expectations for today: what do you expect to learn?

2] Please tell us your level of familiarity with the following concepts:

Evaluation

☐ Not at all familiar (never heard of the concept)

☐ Slightly familiar (has heard of the concept but never used it)

☐ Somewhat familiar (has used the concept before)

☐ Extremely familiar (uses the concept frequently)

Ex post evaluations

☐ Not at all familiar (never heard of the concept)

☐ Slightly familiar (has heard of the concept but never used it)

☐ Somewhat familiar (has used the concept before)

☐ Extremely familiar (uses the concept frequently)

Climate Change Adaptation

☐ Not at all familiar (never heard of the concept)

☐ Slightly familiar (has heard of the concept but never used it)

☐ Somewhat familiar (has used the concept before)

☐ Extremely familiar (uses the concept frequently)

Sustainability

☐ Not at all familiar (never heard of the concept)

☐ Slightly familiar (has heard of the concept but never used it)

☐ Somewhat familiar (has used the concept before)

☐ Extremely familiar (uses the concept frequently)

Resilience

☐ Not at all familiar (never heard of the concept)

☐ Slightly familiar (has heard of the concept but never used it)

☐ Somewhat familiar (has used the concept before)

☐ Extremely familiar (uses the concept frequently)

Theory of Change (ToC)

☐ Not at all familiar (never heard of the concept)

☐ Slightly familiar (has heard of the concept but never used it)

☐ Somewhat familiar (has used the concept before)

☐ Extremely familiar (uses the concept frequently)

3] How would you define sustainability?

4] How would you define resilience in the context of climate change adaptation?

5] The training have the following objectives:

- Understand ex post evaluations in the context of climate change adaptation
- Understand the concept of sustainability, and how to evaluate it at ex post
- Understand the concept of resilience, and how to evaluate it at ex post
- Understand how to build a Theory of Sustainability (ToS) from a Theory of Change (ToC)
- Understand what outcomes are selectable and evaluable for the ex-post evaluations
- Understand the different evaluation methods and how to choose an appropriate method for data collection at ex post

Which of these training objectives do you think will be the most/least challenging for you to meet?

Understand ex post evaluations

☐ Most challenging objective

☐ Least challenging objective

☐ Unsure/ Uncertain

Understand and analyze sustainability

☐ Most challenging objective

☐ Least challenging objective

☐ Unsure/ Uncertain

Understand and analyze resilience

☐ Most challenging objective

☐ Least challenging objective

☐ Unsure/ Uncertain

Build a Theory of Sustainability

☐ Most challenging objective

☐ Least challenging objective

☐ Unsure/ Uncertain

Understand evaluability of outcomes

☐ Most challenging objective

☐ Least challenging objective

☐ Unsure/ Uncertain

Understand data collection methods for ex post

☐ Most challenging objective

☐ Least challenging objective

☐ Unsure/ Uncertain

Please briefly explain your answers:

We are looking forward to seeing you at the training!
