

Enhancing climate-resilient urban development in Asia Pacific: Lessons learned from the Adaptation Fund portfolio

Adaptation Fund Side Event at the Asia-Pacific Climate Week 2023 (APCW 2023)

Johor, Malaysia

14 November 2023, 09:30 - 10:30

Room Tanjung Puteri 304

The Adaptation Fund will host a side event as part of proceedings at the Asia Pacific Climate Week 2023 which will showcase the Fund’s portfolio of projects and activities in the region. The event which is titled: Enhancing climate-resilient urban development in Asia Pacific: “Lessons learned from the Adaptation Fund portfolio”, falls under the Track: Cities, Urban and Rural Settlements, Infrastructure and Transport. It will take place at the Persada Johor International Convention Centre, Bandar Johor Bahru on 14 November 2023 and will be from 09:30 – 10:30 in Room Tanjung Puteri 304.

Objective

This event will present key lessons learned from the Adaptation Fund project portfolio implemented in the Asia Pacific region, including innovative and successful adaptation initiatives that can be shared, enhanced and scaled up to foster transformational adaptation in the region. This event will also present the recent updates under the Fund’s new Medium-Term Strategy (2023-2027) and will showcase its new funding windows and operating modalities.
