

BUILDING COMMUNITY RESILIENCE VIA TRANSFORMATIVE ADAPTATION

Knowledge Sharing

5 Interlinked Components

What has worked

01

Involving communities from the start.
Lesson learnt: Co-creation is non-negotiable

02

Leveraging and strengthening local governance.
Lesson learnt: Work through and strengthen local institutions.

T T

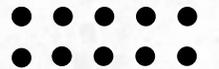

Hybrid Engineering: Combining "Grey" and "Green" Infrastructure.
Lesson learnt: Ecosystem-based adaptation is a powerful, multifunctional tool.

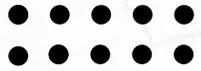

04

Mainstreaming Adaptation into Sectoral Policies.
Lesson learnt: Project objectives must align with national strategies.

05

Clear Communication of Risk and Benefits.
Lesson learnt: Effective communication translates complex science into local reality.
